**Q Local™ Scoring and Reporting Software and
Product Overview and Pricing**

Australia & New Zealand

September 2011

Please refer to the Pearson Clinical and Talent Assessment catalogues for additional information on *Administration* and *Hand Scoring Materials* or visit our website www.psychcorp.com.au

Q Local™ Scoring and Reporting Software Product Overview and Pricing

Q Local™ is a flexible, powerful scoring and reporting software tool that allows the clinician to administer and score more than 30 Pearson assessments.

The broad range of assessments available on Q Local will assist clinicians to assess:

- personality and mental health issues with children, adolescents and adults (e.g. MMPI-2, MMPI-A & MCMI-III)
- the behaviours of children and adults (e.g. PRQ & AUI)
- biopsychosocial factors (e.g. MBMD & P-3)
- cognitive ability and validity (e.g. GAMA & VIP)
- career interests and skills (e.g. CISS & CAI)

How it works:

- Q Local™ installs easily on your computer. Software upgrades can be downloaded from the internet as released.
- Individuals can take the test at the computer or you can manually key the individual's responses from the answer sheets into the Q Local™ software.
- In addition to an annual license fee, you pay only for the tests and administrations needed.
- Q Local™ comes with a report counter that plugs into your computer and tracks the number of test administrations scored.

Q Local™ is available as a desktop version or if you need more than one copy there is also a network version. The benefits of the network version are:

- Multiple users can access a single Q Local™ database and report counter.
- Completed tests are stored in a single database for easy backup and reporting.

Q Local™ Desktop version (includes first year license fee*)	A\$135.00	931 4 99423 353 7	Annual license fee renewal A\$135.00 yearly
Q Local™ Network version (includes first year license fee*)	A\$370.00	931 4 99423 354 4	Annual license fee renewal A\$370.00 yearly

*Q Local™ license fee is purchased in addition to the cost of the test administrations ordered.

Version 2.7 Released August 2011 New to MMPI-2 RF® Reporting

- **RBS (Response Bias Scale)** is an over-reporting indicator associated with exaggerated or non-credible memory complaints.
- **Customized comparison groups** can be created by users based on data within their Q Local database.
- **Two new comparison groups:**
Forensic, Neuropsychological Examination Litigant/Claimant (Men) and
Forensic, Neuropsychological Examination Litigant/Claimant (Women)
- **Reports** can be printed directly from an MMPI-2 protocol.
- **One-page summary** of the test taker's T scores are organized by domain.
- **Specific scales and cut-offs** for which users would like to see item level information in the report can now be selected.

Pearson Scoring Services

We can make your job easier by scanning your answer sheets and providing you with the reports. Pearson Clinical and Talent Assessment now offer a scoring service. Whether you administer 10 assessments each week, 100 or more, the scoring service saves you time and money.

How much will the scoring service cost?

The scoring bureau service fee is \$16.50 per report, plus the cost of the Q Local report requested. For example: The BAI Interpretive Report is \$5.00 per report. To score and report one BAI assessment the bureau service is \$16.50 plus the BAI report cost of \$5.00. The price includes return postage of the hard copy report with the original answer sheet. Answer sheets are processed within 24 hours of receipt. For all of the terms and conditions relating to this service, please refer to the *Pearson Scoring Service Overview*.

For more information on the bureau scoring services simply send an email to our client services team at info@psychcorp.com.au and request a copy of our *Pearson Scoring Service Overview*.

Q Local™ Assessments and Pricing Table

The following table outlines the assessments available on Q Local™.

The table includes:

- Name of the assessment
 - Who can use the assessment
 - What the assessment measures
 - Product code and/or ISBN
 - Types of reports available
 - Assessment components available
 - Professional qualifications required to administer the assessment (User Level)
 - Price (AUD\$) GST included. NZ pricing please refer to our website www.psychcorp.com.au
- Note: Reports price is per administration

Note: Unless otherwise stated *Starter Kits* include:

- manual / user's guide
- 3 answer sheets
- 1 test booklet
- 3 Q Local™ reports (includes option to administer on-screen and then report)
